Conservation Effects

Land use: Cropland **Guidance Document ID#:** C12

page 1 of 1

Resource Setting: Orchard, vineyard or ornamental nursery not adjacent to surface water. Not irrigated.

RMS Alternative #2

Critical Area Planting (342)

Diversion (362)

Heavy Use Area Protection (561)

Mulching (484)

Nutrient Management (590)

Pest Management (595)

Typical Resource		Practice(s) that treat the resource	
	Concerns	concern to Quality Criteria levels*	Comments
SOIL Erosion			
1)	Sheet & rill	Critical Area Planting (342)	soil loss less than "T"
	erosion	Heavy Use Area Protection (561)	
- 2	T 1	Mulching (484)	
2)	Ephemeral	Critical Area Planting (342)	gullies stabilized
	gully/concentrat	Diversion (362)	
2)	ed flow erosion Classic	Heavy Use Area Protection (561)	11' (1 '1' 1
3)		Diversion (362)	gullies stabilized
	gully/concentrat ed flow erosion		
TX7 A	TER Quality – gr	ound water	
1)	Pesticides	Pest Management (595)	nosticida movement
1)	1 esticides	1 est Management (393)	pesticide movement minimized
2)	Nutrients	Nytriant Management (500)	* **
2)	Nutrients	Nutrient Management (590)	nutrient movement
XX7 A	TED O 19		minimized
WATER Quality – surface water – no concern			
WATER Quantity – no concern AIR			
		D (14	
1)	Airborne Chemical Drift	Pest Management (595)	Application in
	Chemical Drift		compliance with laws
			and consistent with
			Drift Management
			Plan.
PLANTS			
1)	Invasive	Pest Management (595)	Invasive species and
	species and		noxious weeds
	noxious weeds		controlled.
2)	Threatened and	Pest Management (595)	Laws regarding T&E
	endangered		species followed.
	species		•
ANIMAL Habitat – no concern			
ANIMAL Management			
1)	Threatened and	Pest Management (595)	Laws regarding T&E
	endangered		species followed.
	species		
* Practices must be installed according to NPCS practice standards found in FOTG Section IV. Constal			

^{*} Practices must be installed according to NRCS practice standards found in FOTG Section IV. General criteria (or design criteria), Additional Criteria specific to the resource concern, and Operation and Maintenance requirements must be met.
